Exterior Doors

AT A GLANCE

Our dedication to superior craftsmanship allows us to deliver unsurpassed quality and value in both fiberglass and steel entry doors. We offer a comprehensive selection of door styles, finishes and decorative glass options – all crafted with exacting attention to detail.

Open to extraordinary™

Masonite® is committed to delivering unsurpassed performance in interior and exterior doors and glass products. We want to provide not just a door, but a total experience, giving you a complete line of products, services and support tools designed around your success.

We are your leading source for the latest trend insights and design ideas, delivering distinctive door styles that complement any home and personal taste. From the classic lines of our new Heritage Craftsman collection to the wide open views of our VistaGrande® series, we offer the breadth of exterior door and glass options to meet any performance, material and design need, so you always have the right answer for your customers.

Every product we offer is the result of years of research, design, engineering, and development that begins at the Masonite Innovation Center in suburban Chicago, the largest facility of its kind in the industry.

It is this dedication to a fully integrated design process that sets us apart from the competition and ensures every product we deliver lives up to our exacting standards for quality, consistency and craftsmanship.

YOUR TRUSTED PARTNER

Masonite is not just a trusted leader in exterior doors; we are a powerful partner who helps you elevate the role a door plays in your projects—creating more inspiring customer experiences and stronger business results.

BARRINGTON. FIBERGLASS

BELLEVILLE. FIBERGLASS

HERITAGE SERIES. FIBERGLASS

► Featuring superior woodgrain texture, distinct raised mouldings and wider glass, Barrington doors offer the ultimate in style and durability.

► Belleville doors feature distinct architectural details, a reinforced lock area and thousands of customizable glass and panel combinations to choose from.

► Heritage Series® Craftsman door designs are available as an opaque applications in both 6'8" and 8'0" applications to provide privacy and security or add one of the designs from our new Heartland® Craftsman decorative glass collection.

► Factory glazable with new lip lite frame.

Belleville, smooth doors shown painted beige.

Door systems Powered by Endura™ components are engineered to create smarter, better experiences for everyone, every time. Endura's innovative solutions work together to account for real-world challenges you must face each day, delivering secure, hassle-free performance, and unmatched quality and value.

TRILENNIUM. MULTI-POINT LOCKING SYSTEM

Backed by the industry's highest ratings for structural and forced entry performance, Trilennium delivers 3x the strength, 3x the security and the performance in one system.

- ▶ **Unmatched Strength:** Protects with the power of three deadbolts, while one-piece I-Beam lock construction reinforces and strengthens the door panel.
- ▶ **Unmatched Performance:** Bolts pre-engage when unlocked to fight deflection at all times, and can correct misalignment up to 3/16" in three directions once engaged.
- ▶ **Unmatched Operation:** One turn of the thumbturn or key is all you need to unlock the door. With Panic Release, a single turn of the interior lever unlocks the entire system.

TRILENNIUM. HANDSET COLLECTION

Our extensive hardware portfolio provides ultimate customization to match any style, while delivering reliable performance. Choose your level, choose your style, choose your finish – The choice is yours!

Door Exposures

The placement of a door is a major factor in its longevity and maintenance requirements. To adequately protect your door and extend its life, it's imperative to take into account your climate, as well as the direction your door will be facing. Then, you need to determine the amount of overhang and the height of the entrance in relation to the base of the door.

There are some situations where the exposure can be too extreme for a wood door, so it is advisable to use composite or steel doors specifically designed to withstand even harsher elements.

DIRECTION YOUR DOOR FACES
